

News From Room 122

Here's what we have been doing in 2nd Grade!

Language Arts

We finished our first module in unit II! We are now working on our first major writing project. The second grade students are writing a narrative story. They have named the characters and picked a setting and created a summary of their plot. Next week we will write our stories on paper. We will focus on using words that tell when something happens and writing complete sentences with capital letters and end marks.

Science

The second graders did a great job on their first science test!

On Monday, we will begin our second science unit on Vertebrates. Their new unit is already in their binders, feel free to take a look at what we will be learning about in the coming weeks.

Math

We started Math Rotations last week and so far the kids are doing a great job. They have time most days to practice math facts with XtraMath as well as practicing with flashcards. If you would like to allow your child to use XtraMath at home and you have misplaced the log in information, please let me know and I can get it to you. Today, we learned about what a pictograph is and we made one about our favorite day of the week. We have also talked about the difference between week days and weekend days.

History

We took our first History test this week. The test was on the computer and the class did a great job on the test. They got to try a piece of sweet candy from Japan today.

On Monday, we will begin learning about Ancient China.

2018-2019 School Verse

Since we live by the Spirit, let us keep in step with the Spirit.

Galatians 5:25

Jesus Time

As we learn more about God's Word, our class begins a new unit called "The Promised Land." We will read about the complaining people of Israel as they journey from Egypt to their new home. We will read about their disobedience, idolatry, and temptations. But what will shine through in these stories will not be those sins, but the love of God. The forgiving and giving hand of God will lead the people of Israel on, give them rules, provide for their every need, and defeat their enemies.
