## Language Arts

This week, we learned about beavers as we read stories and were read to. We also had Mr. Mills visit our class. He works for the DNR and was able to show us a beaver skull, a log that had been cut down by a beaver, and an otter pelt. We learned so much! It was great to be able to use our reading skills to learn more.

## BIBLE

Pentecost Acts 2

**"Repent and be baptized and you will receive the gift of the Holy Spirit."**

**28: 19 & 20**

After Jesus physically left the disciples, He sent someone to help them, the Holy Spirit. The Holy Spirit was "like" flames of fire on their heads. This doesn't mean they were human candles, but there were no words to describe this and "like" flames was the closest the writer of Acts could come. We learned about the fruit of the Spirit and how the Spirit helps us. On Friday, during chapel, 2 students of St. Michael were baptized! Special day!

New Floor Puzzle!

## Math

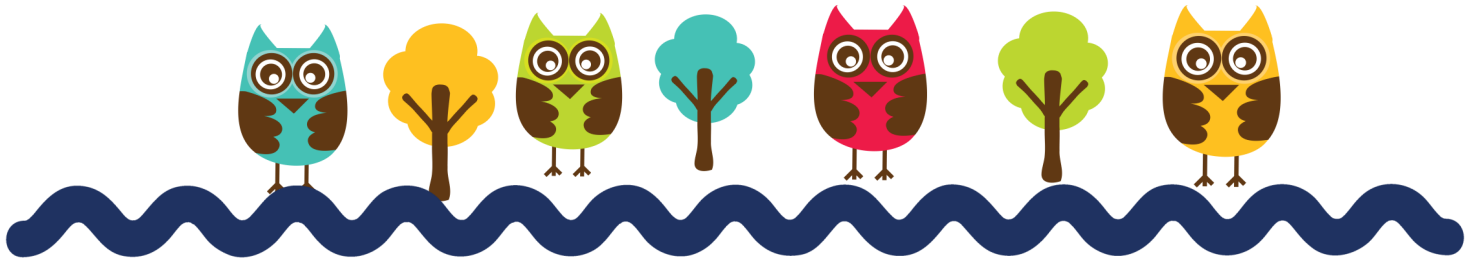

This week in math, we compared heights and lengths. We also talked about symmetry. We played store and

practiced buying things with coins.

## JUNIOR ACHIEVEMENT

This week we learned about earning money. We talked about goods and services.

## Social Studies & Science

### Show and Tell

This week, we will be learning about nocturnal animals, plot, and Paul's shipwreck.

As I mentioned in the language arts section, we studied beavers this week. I love that the students were doing even more beaver research on their own and telling me there is one more thing beavers use their tail for, they store fat in it! On Friday, we made delicious treats that look like beavers! The kids ate them up! :)
