## Math and Science

**Math:** Monday is our 5<sup>th</sup> math test! We're going to be focusing on patterns this week. We will cover designs with pattern blocks, see patterns when solving for our doubles facts, adding one to a number, and find out what a subtraction story problem sounds like.

**Science:** We didn't get to do much with science last week with ITBS. But we did our first STEM project! We will test our egg drop designs on Thursday! I hope to also continue on our fish unit and do our habitat projects.

10/30  
FRI

- NO SCHOOL

11/6  
FRI

- 1<sup>st</sup> Q Reports go home
